Masterpiece of Openwork Carving Design

Are you eager to pursue high-quality life style in a fast-paced environment? By combining two concepts of structure aesthetics and stylish trends into design, USB 2.0 Touch T50 features hollow openwork-carving design which shows noble qualities and makes itself stand out among numerous products in the market.

Cap-less Design，Fashion Accessory

One of the great features of Touch T50 is the cap-less design. The openwork carving makes it easier to be attached to personal belongings without worries about cap loss. In additional to data storage, T50 is a must-have item as your trendy fashion accessory in the upcoming seasons.

Zinc Alloy Metallic Casing

Touch T50 helps users to express an extraordinary taste and a lifestyle of self-expression with the characteristics such as durable zinc alloy casing and compact size. T50 is so easy to use and store, and the sandblasting treatment provides superior resistance to scratches and fingerprints.

COB (Chip-on-board) Technology

By applying the COB (Chip On Board) technology, Touch T50 offers complete data protections against water, dust and vibration to keep the golden finger away from impairments that might lead to data damages and losses. Users will enjoy safe and delightful storage experiences.
